1. Choose an EBSCO database. In this example, MasterFILE is selected. Select the Publications link.

2. When the Publications screen appears, enter desired magazine or journal title in the 2nd field.

Click the Browse button. The results will appear in the next screen.
3. Click on the publication name.

4. Search Within this Publication by choosing that option above the record details or view individual issues by selection a year and an issue under the All Issues listing on the right.
5. On the Search screen, the publication name will be filled in for the first field. Enter the search terms in the 2nd field.

In this example, the search term is "seasons" to find articles about the weather and seasons of the year.

6. The next screen shows the results of the search.
